# Automotive Robot Applications

Common applications in automotive manufacturing

## Spot Welding

Robot: 6−axis, heavy payload

*Weld quality, cycle time*

## Arc Welding

Robot: 6−axis

*Seam tracking, penetration*

## Painting

Robot: 6−axis, hollow wrist

*Coverage, film thickness*

## Assembly

Robot: 6−axis or SCARA

*Precision, flexibility*

## Material Handling

Robot: 6−axis or gantry

*Throughput, reliability*

## Inspection

Robot: 6−axis with vision

*Detection rate, false positive*
